Severn “Learning Village”

Address:
201 Water Street
Severna Park, MD 21046

Owner: Severn School

In order to proceed with the demolition of a 1920's era classroom building, it was necessary to provide temporary mobile classrooms for the Middle School for an entire year. The trailers were named “Learning Village”. The installation included Grading, Electrical, Plumbing, Heating and A/C, Fire Alarm, Decking and Roofing. All of the desks, books and computers used in the old building had to be moved to the new temporary Learning Village. After the completion of the Teel Academic Center, the entire Village had to be dismantled and removed from the site within a 2 month period in time for the Grand Opening of the Teel Academic Building.
