Project Description

Sandy Hill Camp is located in Cecil County near North East and sits on 211 acres of forest, fields and beaches overlooking the Chesapeake Bay. The owner/operator needed a large Multi-Purpose Building designed with the intent to provide the existing camp with a large indoor facility for the purposes of entertaining large groups and a large open space for physical activities. The camp has several hundred children per week filtering through many activities such as rope climbing, water skiing, zip lines, and horseback riding. The new facility is over 8,000 sf and can house almost 900 people. It consists of a large stage for theatrical productions and a gymnasium floor consisting of one full size basketball court, one half basketball court and two full size volleyball courts.
