SEVERN SCHOOL – TEEL ACADEMIC CENTER– completed August 15, 2015.

Address

201 Water Street
Severna Park, MD 21146

Owner – Severn School

Architect – Hord Coplan Macht

Project Description:

The site consisted of an old dormitory building built in 1920 when Severn School was a preparatory school for the US Naval Academy. The dormitory building had been converted into classrooms along with an addition on the rear of the building that was built in 1984. Due to environmental restrictions, the county would not allow a new building to be constructed in place of the 1984 addition. The existing 1984 building was demolished down to the structural steel frame and reconstructed around the steel frame.

A new three-story 66,070 sf building known as the Teel Academic Center was constructed which incorporated the rear addition seamlessly into the new building. The building houses the Middle School and 2 disciplines of the Upper School and new Administrative offices.

The Teel Academic Center is intended to create a definitive Main Entrance to the entire Severn School campus.

“The renovation of Teel Academic Center is the crown jewel on the Teel Campus. The new Teel houses two Upper School disciplines and the Middle School – separated by a two-story library. There is a tech area, an Innovation Lab, and a rotunda that is named “Centennial Hall”. Our hope is that every student graduated from Severn School will have his/her name engraved there.”

–Doug Lagarde, Headmaster.
